Washington, DC 20554

Re CC Docket No. 00-257, Notification Regarding of Acquisition of Customers

Dear Ms. Dortch:

WorldCom, Inc. d/b/a MCI is changing the corporate entity under which it provides local telecommunications service to those customers who receive local telecommunications service from Brooks Fiber Communications of Arkansas, Inc., *et al* (see attachment 3 for list of all affected entities with state of incorporation). Local telecommunications service will be provided to customers of these entities under the name MCIMetro Access Transmission Services LLC ("MCI Metro")¹ no sooner than January 1, 2004. It is not clear that the Commission's rules concerning verification of changes in telecommunications services are applicable to this change in corporate entity. Nonetheless, out of an abundance of caution, MCI hereby notifies the Commission, pursuant to 47 C.F.R. § 64.1120(e), of this impending change.

Attached are a certification and a sample customer notification letter. Please include this notice and the attachments in the record of the above-referenced proceeding.

Sincerely,

Karen Reidy

014

¹ For residence of Massachusetts, the name of their local service provider will be MCIMetro Access Transmission Services of Massachusetts, Inc. For residence of Virginia, the name of their local service provider will be MCIMetro Access Transmission Services of Virginia, Inc.

CERTIFICATION OF COMPLIANCE

CERTIFICATION OF COMPLIANCE

On behalf of WorldCom, Inc., d/b/a MCI, I certify that MCI has provided written notice, as required by 47 C.F.R. §64.1120(e)(3), to subscribers affected by the change in corporate entity under which MCI will provide local telecommunications services to the customers currently being provided such service through the entities listed in Attachment 3.

A handwritten signature in black ink, appearing to be 'G. Blount', written over a horizontal line.

Gail Blount
Director, Communications
WorldCom, Inc

Dear Valued Local Service Customer

As part of our ongoing initiative to streamline and simplify the way we do business with our customers, we will be changing the corporate entity under which we provide local phone service. Whether you currently receive local service from MCImetro Access Transmission Services LLC ("MCImetro") or an affiliate (i.e., MCI WorldCom Communications, Inc., Brooks Fiber Communications, or Metropolitan Fiber Systems/MFS), your service will now be provided by MCImetro under the terms of your existing contract, which will be transferred to MCImetro effective on or after December 31, 2003.

This change will not result in any additional charges to you and will not affect the quality, features, rates, billing, terms or any other aspect of your local phone service. It simply consolidates into a single entity the various corporate entities under which we currently tariff and provide local service. Effective on or after December 31, 2003, any communications regarding your local phone service, past or present, should be directed to MCImetro.

Any changes to our rates, terms or conditions that may occur in the future will be reflected in the MCImetro tariffs or, if applicable, pursuant to contract.

Reference to your current local service provider name may be found on the first page of your invoice, to the right of the toll-free number for Customer Service. Should you have questions, please feel free to call Customer Service at that number.

This change will take place regardless of whether you have a preferred carrier freeze on your service. Any existing freeze will be lifted to effect this change, and if you wish to reestablish the freeze you will need to contact MCImetro at the above toll-free number.

As always, you have the right to receive local phone service from any carrier you choose, subject to the terms of any existing contract commitment.

MCI provides innovative communications solutions for more than 20 million residential and business customers around the world, including two-thirds of the Fortune® 1000. In addition to local operations in 65 countries, we have more than 130 data centers in 22 countries, and more than 4,500 Points of Presence worldwide. We offer Frame Relay service in 72 countries, ATM service in 21 countries, and Internet access in more than 2,800 cities across six continents. We are pleased to provide telecommunications services to your business as well. Thank you for being a valued customer.

Sincerely,

MCImetro Access Transmission Services LLC
